

JOHN P. CANCEL, LEED AP
Vice President, Engineering and Pre-Construction

Education: Broward Community College
Associate in Science, HVAC Technology

ITT Industries, Bell & Gossett
Hydronic System Design & Applications

Carrier Corporation
HVAC Design

Experience: John's experience, training and expertise are in HVAC design, mechanical engineering, and commercial HVAC system applications. He began working in the industry in 1980 with Florida Heating and Engineering, and in 1984, he joined Quality Air Conditioning as a Junior Engineer.

John's career with Hill York began in 1988 as an entry level Project Engineer. He progressed to Project Manager in 1989, and in 1995, he became Senior Engineer in the Engineering Department. His focus during these years was Design/Build in the high-rise condominium and commercial markets. In 2000, John became Vice President. His responsibilities include engineering and pre-construction documents for all Hill York Branches, which currently include Fort Lauderdale, Miami, West Palm Beach, Melbourne, Sarasota and Tampa.

John is involved with ASHRAE, serving as 2005/2006 President, and he enjoys sports and family.
